SUGGESTION

## MAJOR (2)

File: samples/buggy\_api.js:12

Approved

Issue

Unhandled promise rejection due to missing .catch() in async function.

Recommended Fix

add .catch() to handle potential errors.

File: samples/buggy\_apis.js:15

Approved

Issue

Awaited function without error handling will crash on network failure.

Recommended Fix

add try/catch block around the await.

## MINOR (1)

File: `samples/buggy_api.js:3`

Needs Review

#### Issue

Comment suggests test for WARNING-level issues but does not address actual code.

#### Recommended Fix

update comment to clarify purpose and scope.

---

#### Developer Comment

Comments are not relatable

#### Model Response

The comment does not address the actual issue - the unhandled promise rejection in the code - and remains misleading in scope. The original concern about unhandled rejections is valid and requires attention.
